

# Document Generation Solution

The OWIT Document Generation Solution supports and maintains multiple disparate printing systems from a single location, and supports all policy types, organizational functions, or market needs. It can be used across all lines of business – personal, commercial, and specialty insurance products and across all organizational functions.

- Defines a 'document set' comprising of multiple, various documents and associated workflows
- Quickly change 'document sets' due to industry regulations, market requirements, or emerging opportunities

## Document Generation Solution

### At the Heart of the Solution

- Document Service to support the creation of documents and their data fields
- Rules Service to support any workflow pertaining to the data population logic

### MICROSERVICES USED

#### Document Service

- Rapid design, maintenance, and deployment of policy docs
- Simultaneous access by multiple systems
- Compatibility with existing and future environments

#### Rules Service

- Ensures regulatory compliance
- Sophisticated decision logic
- Fully customizable
- Continuous integration and delivery process

#### Login Service

- Enables single sign-in
- Secures data access
- Provides two-factor authentication
- Supports integration (SSO) to any platform

#### Party Management Service

- Centralizes entities and relationships management
- Manages entity data information from entry into a realized product
- Parties available for use by realized product
- Associates users of OWIT microservices with single party entity

OWIT Global (OWIT) is an insurance technology company specializing in solutions built on a unique suite of reusable insurance-specific microservices. OWIT's solutions include Bordereaux and Binder Management, Business to Business/Consumer Portals, User and Point of Sale Portals, Rating, Document-lite Generation, Insurance Data Transformation, and Policy Lifecycle. Each OWIT solution is built on a collection of microservices that allow for unprecedented reusability to deliver an array of additional solutions to solve pressing pain points for both immediate and longer-term business benefits. OWIT's solutions can be deployed standalone or integrated with a Broker's, Carrier's, or MGA's existing environment to maximize investments.

OWIT Global's offering is configured and managed through a "no-code" environment. All user experiences, workflows, rating calculations, and rules are configured through a no-code tool. The tools come with embedded data fields, insurance workflows, and in the case of integration, connectors that can all be configurable and changed to meet individual insurer needs.

We have an experienced technical team with years of insurance technology experience. Whether you need an experienced resource to help with requirements gathering or a software team to develop long-term or one-off technology projects, our team is available to assist. Our resources will design and configure efficient software solutions for a variety of business needs.
